SUMMARY

Java Backend Developer & Production Support Engineer with 3+ years of experience in enterprise financial applications. Skilled in Core Java, SQL optimization, and RESTful API development with strong expertise in production support and system reliability. Proven track record of leveraging tools like Azure DevOps, Splunk, and ServiceNow to resolve high-impact incidents, reduce system downtime, and improve operational efficiency. Achieved 99.9% uptime, reduced batch processing time by 90%, and improved incident resolution efficiency through automation and monitoring enhancements.

TECHNICAL SKILLS

Programming:

- Java (OOP, Collections, Multithreading, Exception Handling, JDBC), Basic JavaScript, HTML, CSS

Backend & APIs:

- REST API Debugging, API Integration

Databases:

- Oracle, SQL Server, Stored Procedures, Indexing, Query Optimization, Performance Tuning

DevOps & Tools:

- Azure DevOps, Git, Stonebranch, Splunk, ServiceNow, Linux, Shell Scripting, PuTTY

Cloud:

- Microsoft Azure, Azure Kubernetes Service (AKS)

Production Support:

- L2/L3 Support, Incident Management, Problem Management, Change Management, ITIL, SLA Monitoring, Batch Processing, Log Analysis
-

WORK EXPERIENCE

TATA CONSULTANCY SERVICES (TCS)

Java Developer & Production Support Engineer

May, 2022 – Present

- Resolved 50+ monthly production incidents using Java debugging, SQL analysis, and Splunk log monitoring, achieving 98% SLA compliance
- Leveraged ServiceNow for incident, problem, and change management, ensuring structured ticket handling and faster resolution cycles
- Performed Root Cause Analysis (RCA) and implemented fixes, reducing recurring incidents by 30%
- Optimized Oracle & SQL Server queries using indexing and execution plan analysis, reducing execution time by 35%
- Managed CI/CD pipelines and deployments using Azure DevOps, enabling zero-downtime releases and faster delivery cycles

- Monitored batch jobs and automated workflows using Stonebranch, improving reliability and reducing manual intervention by 25%
 - Used Splunk dashboards and alerts for proactive monitoring, reducing incident detection time by 40%
 - Worked on Linux environments (PuTTY, Shell scripting) for job execution, troubleshooting, and log analysis
 - Supported cloud-based deployments on Azure & AKS, ensuring application health and availability (99.9% uptime)
-

KEY ACHIEVEMENT :

HIGH-PERFORMANCE BATCH PROCESSING OPTIMIZATION

- Re-engineered a critical batch processing system using Java + SQL optimization techniques
 - Migrated file-based processing to database-driven architecture using temporary tables and stored procedures
 - Eliminated redundant processing and improved data handling efficiency
 - Reduced execution time from 3+ hours to 15 minutes (~90% improvement)
 - Improved system throughput and reduced production delays significantly
-

REST API MONITORING & DEBUGGING TOOL

- Owned REST API monitoring using Splunk, performing advanced log analysis to detect failure patterns and drive faster root cause resolution across upstream systems.
 - Executed SQL-based data validation and debugging, reducing incident resolution time and improving API reliability in production environments.
-

AUTOMATION & JOB SCHEDULING OPTIMIZATION

- Designed and monitored batch workflows using Stonebranch, ensuring reliable execution
 - Automated recurring operational tasks using Shell scripting, reducing manual effort
 - Improved job success rate and minimized failure handling time
-

SHAREPOINT & WORKFLOW AUTOMATION

- Developed and managed SharePoint sites with role-based access control
 - Integrated SharePoint with OneDrive to streamline document workflows
 - Automated access management and template standardization
-

SECURITY & AUTHENTICATION

- Implemented Single Sign-On (SSO) for enterprise applications
 - Collaborated with security teams to ensure compliance and secure authentication flows
-

CERTIFICATES

- AZURE FUNDAMENTALS - AZ 900
- AZURE AI ENGINEER ASSOCIATE - AI 102
- POWER PLATFORM DEVELOPER ASSOCIATE - PL 400

EDUCATION

Bachelor of Technology (Electronics & Communication Engineering)

- Vizag institute of technology | 2016 - 2020

Intermediate (M.P.C)

- Bhaskara junior college | 2014 - 2016

SSC

- K.D.P.M High School | 2013
-

LANGUAGE

- Telugu
 - English
-

DECLARATION

- I hereby (Manikanta Kalluri) declare that the details furnished above are true, correct and complete to the best of my knowledge.

Yours faithfully,
Manikanta Kalluri
